

Using tenths and fifths to make a whole

$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$
----------------	----------------	----------------	----------------	----------------	----------------	----------------	----------------	----------------	----------------

Number of tenths: ____

Number of fifths: ____

$\frac{1}{5}$	$\frac{1}{5}$	$\frac{1}{5}$	$\frac{1}{5}$	$\frac{1}{5}$
---------------	---------------	---------------	---------------	---------------

Number of tenths: ____

Number of fifths: ____

$\frac{1}{5}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$	$\frac{1}{10}$
---------------	----------------	----------------	----------------	----------------	----------------	----------------	----------------	----------------

Number of tenths: ____

Number of fifths: ____

Now you write in the fractions and then add them together:

--	--	--	--	--	--	--	--

Number of tenths: ____

Number of fifths: ____

--	--	--	--	--	--	--

Number of tenths: ____

Number of fifths: ____

--	--	--	--	--	--

Number of tenths: ____

Number of fifths: ____

--	--	--	--	--	--	--

Number of tenths: ____

Number of fifths: ____

--	--	--	--	--	--

Number of tenths: ____

Number of fifths: ____
