

Equivalent Fractions - halves, quarters, eighths

Take three identical circles of paper.

Fold one in halves.

Fold one in quarters.

Fold one in eighths.

Draw on the fold lines, write the size of the fraction on each piece.

You may choose to cut them out.

Answer these questions?

1. $\frac{1}{2} = \frac{?}{4}$

2. $\frac{1}{4} = \frac{?}{8}$

3. $\frac{4}{8} = \frac{?}{4}$

4. $\frac{4}{8} = \frac{?}{2}$

5. $\frac{6}{8} = \frac{?}{4}$

6. $\frac{2}{4} = \frac{?}{8}$

7. $\frac{4}{4} = \frac{?}{8}$

8. $\frac{8}{2} = \frac{?}{2}$
